

Purchase PPE from Atlantic Canada Suppliers for your Business

The Government of New Brunswick recognizes that some New Brunswick businesses may require personal protective equipment (PPE) for their employees in order to operate while still respecting public health measures.

To assist businesses that may not have a current supplier or may not be familiar with the market, the Government of New Brunswick has created a list of some potential sources of supply of PPE which can be used as reference. These suppliers have confirmed their interest to sell PPE to New Brunswick businesses and/or industry associations.

*Note: this is not an all-inclusive list. There may be other local suppliers, available to meet your needs. **The below includes those Atlantic Canada suppliers that have confirmed their interest to sell PPE to New Brunswick businesses and/or industry associations and have met certain requirements established by the Government of New Brunswick.** When purchasing PPE from these suppliers, businesses are solely responsible to ensure that the PPE meets their needs and requirements. Businesses are also responsible to contact these suppliers to obtain further details, such as product specifications, available quantities and pricing. This list will be updated on a weekly basis. Suppliers are listed in alphabetical order.*
