

New Brunswick First Procurement Strategy

Our Results – April to December 2024

86% awarded to NB suppliers and contractors

Based on purchase orders/contracts issued by Strategic Procurement (Service New Brunswick) for the purchase of goods, services or construction services on behalf of GNB Part 1 (departments and agencies) and Part 2 (school districts) or on purchase orders/contracts issued by the Department of Transportation and Infrastructure for the purchase or construction services on behalf of GNB Part 1, Part 2 and Regional Health Authorities.

Economic impact figures provided by the Department of Finance and Treasury Board, based on 2021 Statistics Canada's NB Multipliers for All Industries. Only direct impacts were used due to the linkages that exist between industries, to prevent double-counting. These results do not show the impact of using these procurement programs to purchase machinery and equipment, which could potentially lower the results should the difference be made.
