

## Motor-Driven Cycle Licence

1. Prior to the road test, you must complete the following tests: Road Sign Recognition Exam, Rules of the Road Non-Commercial Knowledge Exam, Rules of the Road Motorcycle/Motor Driven Cycle Knowledge Exam and Vision. Once you pass the written tests, you are permitted to practice on your private property, not on a public road or parking lot. **This is not a learner's permit for the moped/scooter.**

**Completed tests are valid for a period of six months, therefore the road test must be completed before the written tests expire.**

2. Your road test appointment can be done online at [www.snb.ca](http://www.snb.ca) or by contacting TeleServices 1-888-762-8600.
3. Because the road test is completed off site, it is important that the payment be completed in advance. Have the bike at the designated area 15 minutes prior to your appointment.
4. For the road test appointment:
  - you are not allowed to drive the moped/scooter yourself in the designated area for the driving test;
  - you are not allowed to drive the moped/scooter without your helmet on and fastened properly;
  - the road test location is not designed as a practice area;
  - if you are under 18 you must have a completed consent form;
  - payment must be made in advance of the road test and receipt must be provided to the examiner as proof of payment.
5. The bike you are testing on must be street-worthy:
  - you must present a valid registration and insurance card for the moped/scooter that you are being tested with;
  - good tires;
  - working headlights, hand and foot brake lights, signal lights;
  - working horn;
  - good exhaust—NO EXCESSIVE NOISE.

**\* We do not supply the Moped/Scooter for road test.**

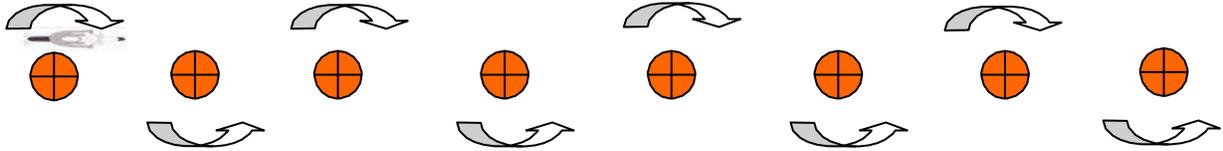

6. HELMET must be in good condition and DOT OR CSA safety approved emblem or sticker on the back of helmet indicating standards have been met. Proper clothing and footwear (jackets, pants, shoes or boots above the ankles and gloves) for your safety should be worn.

**THANK YOU AND DRIVE SAFELY!**

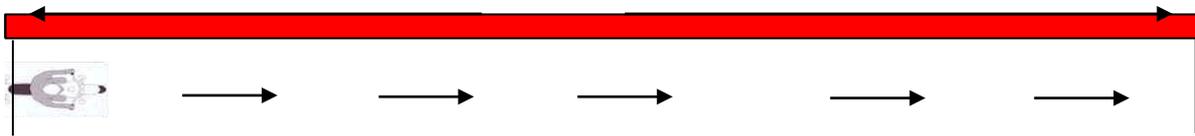

**Motor-Driven Cycle Licence**

**MOTOR-DRIVEN CYCLE ROAD TEST**

**SERPENTINE (ZIGZAG)** - 2.4 meters (8 feet) between cones for 550cc and less, or 3 meters (10 feet) between cones for over 550cc in both directions.
